- Introduction to Computer Science and Programming
- Computing in Context

Projects

Minkstarter | (React/Redux/Ruby on Rails)

- Single-page web application inspired by Kickstarter that allows users to create and fund projects
- Implements reward system that would allow users to earn rewards if pledging a certain amount
- Allows users to live search based on matching titles, descriptions, details or projects

FindYourJob | (ReactNative/Redux)

- Mobile app for finding jobs using the Indeed API
- Implements swipeable components to save liked jobs
- Technologies used: React Native, React.js, Redux.js, Expo

Weatherapp | (React/Redux)

- Web application for six day forecast based on user's zip code
- Technologies used: React.js, Redux.js, openweathermap api
- Live version: <https://weather-app-3.herokuapp.com/>

Emaily | (MERN Stack)

- Web application to email clients on a user's behalf and receive survey feedback
- Implements passport module with passport-google-oauth20 for user authentication
- Technologies used: Mongo, Mongoose, React.js, Redux.js, and Webhooks
- Live version: <https://murmuring-hollows-38905.herokuapp.com/>

Experience

EquityToken New York, New York
Front End Developer Mar. 2019 to Current

- Implemented React.js, Redux and Firebase to create web application in order to create and update cap tables
- Worked with designers to create mockups that would later be used to make software intuitive and simple to use
- Implemented async architecture with redux-thunk in order to dispatch actions based on the resolution of promises

Chainsafe Toronto (Remote Developer in Syosset, New York)
Front End Developer Mar. 2018 to Oct. 2018

- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS, Javascript, React.js and React Native
- Developed cryptocurrency wallet mobile application (WeiPay), for sending and receiving transactions using React Native and ethjs node module.
- Developed the front end portion of Chaintax (application for calculating taxes owed on cryptocurrency), using React.js and Redux.js

Fork & Spoon New York, NY
Operations Manager Sept. 2012 to Feb. 2018

- Managed daily operations for a family startup gourmet deli in Midtown Manhattan servicing over 1000 customers daily
- Oversaw 20 employees, managed finances and customer service, assessed cost-effectiveness
